

# HELLO!

## FROM S ISWARAN

Dear Residents of West Coast,

The past three years have been a struggle but finally we can see light at the end of the tunnel. Though mask-wearing on public transport is no longer mandatory from 13 February 2023, please be vigilant and maintain good public health practices. Let us all look forward to a great 2023!

Ending 2022 on a happy note, we presented the West Coast Bursary Awards to 134 students. Congratulations to all our award recipients! At the West Coast GRC Family Day at West Coast Park, many parents and children enjoyed participating in tree planting, a carnival and movie screening.

We launched the "Right by Your Side" programme, in conjunction with the West Coast CC Open House and Active Ageing Carnival at West Coast CC. This programme organises community help among neighbours, so that residents can help their elderly neighbours by referring them to the CC and Residents' Networks for assistance. By partnering agencies and professional service providers, we aim to provide help to our seniors in need.

During my walkabouts, some of you have given me feedback on fitness corners. I am pleased to share that a new fitness corner will be built at Blk 611 Clementi West Street 1, and the existing fitness corner at Blk 722 Clementi West Street 2 will be upgraded, so that more residents can enjoy a healthy lifestyle.

Also, do remember to use your \$300 of CDC vouchers. This time, \$150 can be spent at heartland hawkers and merchants, and another \$150 at participating supermarkets, which can help to defray daily expenses

Please send your feedback, comments or suggestions to me at [west.coast.mps@pap.org.sg](mailto:west.coast.mps@pap.org.sg).

I wish everyone a year filled with good health, joy and prosperity!
