

# HELLO!

## FROM PATRICK TAY

I am pleased to share some exciting developments in our Pioneer Constituency as we progress on our journey towards creating a more sustainable and environmentally friendly community for all of us.

### Creating a Sustainable and Vibrant Home

In collaboration with Plastify and OCBC, we have installed a **plastic recycling** machine at the front entrance of **The Frontier Community Club**. This initiative, combined with Cloop textile recycling bins and the blue **SGRecycle** programme, empowers Pioneer to reduce waste within our community, encouraging recycling and responsible consumption.

I am delighted to announce the reopening of our **Jurong West Hawker Centre**, a testament to our commitment in providing a vibrant communal space along with affordable food options for our Pioneer community. Do visit to show your support for our hawkers!

I am thrilled to announce that we have secured a successful tender for the construction of **cycling paths** in Pioneer Constituency as part of the **Islandwide Cycling Network**. These paths will enhance connectivity for active mobility and offer a greener and healthier commuting option for our residents.

### Connecting with You

Recent **house visits** have enabled us to gather essential feedback on issues facing residents. Furthermore, the festive spirit has brought us together as we celebrated the **Mid-Autumn Festival** in various Pioneer Zones, strengthening our community bonds and creating lasting memories for all.

At the community level, I would like to thank our residents, community partners, and Advisers of West Coast GRC and Pioneer Constituency for actively participating in the **Our SG – Home of Forward SG Conversation**. Your ideas, thoughts, and questions have enriched our discussions and contributed to a vibrant dialogue. I commend your dedication to shaping our renewed social compact, which will have a lasting impact on Pioneer for generations to come.

### Caring for All

On the national front, Deputy Prime Minister Lawrence Wong has announced a \$1.1 billion **Cost-of-Living Support Package** to help Singaporeans cope with rising inflation and cost-of-living concerns. This demonstrates the government's dedication to easing the financial burdens faced by our citizens.

Thank you for your continued support and active involvement in our community. With the school holidays around the corner, be sure to check out the activities our community partners, Resident Networks and CC have in store for you!
